Thermomat (5,0 640 0,5x10)

8 476.00

Thermomat - 5,0 640 0,5x10. This is a compact, portable device used for water treatment. It features a cylindrical body with a handle and a control panel. The device is designed for easy installation and use in various settings, including outdoor and indoor environments. It is known for its efficiency in removing impurities and improving water quality. The model shown is the 5,0 640 0,5x10 version, which is suitable for a wide range of applications. The device is made of durable materials and is built to last. It is a reliable choice for anyone looking to improve their water supply. The Thermomat is a simple and effective solution for water treatment needs. It is easy to use and requires minimal maintenance. The device is also compact and lightweight, making it easy to carry and store. Overall, the Thermomat is a high-quality product that offers excellent performance and value for money. It is a must-have for anyone who wants to ensure the safety and quality of their water.
